Rollout of Lautenberg law divides senators who championed it

E&E News

Their quick retreat from common ground to familiar opposition positions is an indication to policy experts that the **TSCA** reform deal was an extraordinary agreement that would be impossible to make today — and one which is now being viewed very differently by the lawmakers who pushed to enshrine it ...

Systematic Failures of Chemical Safety Research at Environmental Protection Agency

Competitive Enterprise Institute (blog)

We have now a much better alternative, EPA's newly reformed chemicals program under the Toxic Substances Control Act. I have expressed concerns about **TSCA** reform because the standards in the prior law were strong and change can be risky. But the revised law still contains some good language ...

Scott Pruitt's new science transparency rule may seriously backfire

ThinkProgress

Beck also worried that requiring public data could disrupt registration for chemicals under the Toxic Substances Control Act (**TSCA**). Under an update to **TSCA** passed in 2016, the EPA has to make an affirmative finding that a particular chemical does not pose a threat to human health before approving it ...
